Al-Salam district, Riyadh, Saudi Arabia, 0556171042

ahmedabdelmonsif555@gmail.com

Results-oriented Quality Control Supervisor with expertise in implementing and optimizing quality control processes to ensure product excellence. Skilled in developing comprehensive quality management plans, conducting vendor evaluations, and overseeing inspection activities for equipment. Possesses strong analytical and problem-solving abilities, coupled with excellent communication skills. Seeking a challenging role in a dynamic organization where my skills can contribute to the company's success and growth.

EXPERIENCE

Quality Control Supervisor

Dec 2021 - Present

AL Thurya Oil Refining company, Nasr City, Egypt

- Led a team to execute robust quality control procedures, resulting in a notable reduction in defects and a consistent elevation of product quality.
- Implemented streamlined quality control measures, contributing to a significant reduction in production time while maintaining uncompromising quality benchmarks.
- Demonstrated a commitment to maintaining compliance with industry regulations, reinforcing the company's reputation for delivering high-quality mineral oil.
- Conduct regular testing of products, raw materials and prepared additives to identify defects, deviations, or non-conformities, and develop strategies to address and rectify them.
- Collaborate with other departments, such as production or engineering, to identify and implement process improvements that can enhance product quality and reduce defects.
- Maintain detailed records and documentation of quality control activities, test results, and inspection findings. Ensure compliance with record-keeping standards.
- Provide ongoing training and development opportunities for quality control staff to enhance their skills and knowledge.
- collaborate with sales team and other departments to gather and analyze customer feedback and complaints related to product quality, and work on solutions to address them.
