## Objective

A professional electrician with experience in implementing and maintaining residential and commercial electrical systems. I have strong skills in reading diagrams, identifying faults and repairing them, in addition to complying with safety and quality standards. I seek to join an experienced work team to achieve ideal performance and efficiency in implementing electrical projects.

## Experience

- Amatung Leather Tanning Company Limited** 2022 - 2024  
Electrical Technician
  - Preparing and executing the Kassala Tannery project from an electrical perspective.
  - Installing and maintaining the company's electrical systems to ensure continuous operation.
  - Regularly inspecting systems, diagnosing, and repairing faults.
- Sudanese Petroleum Corporation (SUDAPET)** 2021 - 2022  
Electrical Technician
  - Maintenance of electrical equipment and ensuring efficient operation.
  - Distribution of electrical loads in facilities to ensure optimal energy consumption.
  - Ensuring compliance with electrical safety standards.
- Freelance Electrical Technician** 2019 - 2024  
Electrical Technician
  - Maintenance and installation of various electrical circuits, including control circuits, power circuits, and basic wiring.
  - Providing electrical maintenance services for residential and commercial buildings.
  - Diagnosing and repairing electrical faults quickly and efficiently.
- Al-Yarmouk Military Factory (Sudan) | Intern** 2018 - 2019  
Electrical Technician
  - Working in the general maintenance department of the factory.
  - Winding and rehabilitating electric motors to ensure operational efficiency.
  - Assisting technical teams in performing routine maintenance and repairs.

## Education

- Sudanese-Korean Vocational Training Institute** 2019  
Diploma in General Electricity  
96%

## Technical Skills

- Electrical system maintenance
- Electrical circuit installation
- Diagnosing and repairing electrical faults
- Electrical load distribution
- Electric motor winding
- Reading electrical schematics
- Adhering to electrical safety standards
- Using electrical tools and equipment

## General Skills

- Teamwork and effective communication
- Time management and prioritization
- Problem-solving and decision-making
- Self-learning ability
- Flexibility and adaptability to different work environments
- Working under pressure
- Accuracy and attention to detail
