

MOHAMMAD SHIAM HOSSAIN

ACG & Carton Packaging Operator

PROFESSIONAL SUMMARY

- In 2023 I acquired a bag line operator for a pharmaceutical company. I worked in ACG, carton packaging, unloading machine of ACME company for about 3 years.
- In 2022, I acquired computer knowledge through a Bangladeshi computer course and learned graphic design, Microsoft word and excel and video editing, in the meantime I worked on it and freelanced
- I completed my driving class in 2021 from Uttara driving school. took my driving license from government with dived
- I have worked as a CNC matching designer and matching engineer in dhaka cnc company for 2 years and have been providing service to the company customer for any machine problem.

WORK PROFILE TIMEILINE

Machine Operator:

- Trained new team members on ACG machine operation and quality control standards.
- Handled unloading, carton packaging, and scanning processes
- In addition to your work experience, highlight any relevant skills, such as attention to detail, problem-solving, and teamwork
- If possible, quantify me achievements for example production efficiency.
- Maintained cleanliness and hygiene in the production area
- Operated bag line machines for packaging operations.

Machine Operation and Maintenance :

- Proficient in operating and maintaining ACG machines, including troubleshooting basic mechanical and electrical issues

EDUCATION

- 2023 | Higher Secondary School Certificate(HSC) completed my Higher Secondary School Certificate (HSC) exam in Uttara High school and college.
- 2022|International English Language Testing System(IELTS) I have completed my IELTS course in 2022 from British American Resource Center (BARC) and mentor school.

SKILLS

- ACG, Carton Packaging. ●●●●●●●●●●
- CNC Designer. ●●●●●●●●●●
- Driving Knowledge. ●●●●●●●●●●
- Data Entry. ●●●●●●●●●●
- Computer Knowledge. ●●●●●●●●●●
- Graphic Designer ●●●●●●●●●●
- Maintenance Management ●●●●●●●●●●
- Problem Solving ●●●●●●●●●●
- Adobe (AL, PS, AE)Excel. ●●●●●●●●●●

AREA OF EXPERTISE

- In 2023 i acquired the pharmaceutical company bag line operator, worked in ACG, carton packaging, unloading machine of ACME company for about 3 years
- In 2022, I acquired computer knowledge through a Bangladeshi computer course and learned graphic design, Microsoft word and excel and video editing, in the meantime I worked on it and freelanced.
- I have worked with CNC machine designer and CNC machine engineer for 3 years.

COMPUTER SKILLS

- Graphic Designer| MS office, excel | Adobe (AL, PS, AE) | Python(basics).

KEY DELIVERABLE

Machine Knowledge and setup :

- Operated ACG, unloading, scanning, and carton packaging machines.
- Ensured efficient and accurate production processes.
- Adhered to quality control standards and safety protocols.
- Competent in ACG machine maintenance and ACG setup.
- Troubleshooted and resolved machine malfunctions..

Machine Tools and operating :

- Firstly setup batch on the ACG and carton machine.
- Skilled in operating machines like unloading, ACG, scan, carton matchen.
- As an operator, you have to keep an eye on the ACG machine so that the barcode is not damaged

- Experienced in performing routine maintenance tasks such as cleaning, lubrication, and part replacement.
- Skillful in operating various packaging machinery, including bagging machines, labeling machines, and cartoners.
- Knowledge of ACG machine safety protocols and emergency procedures.

Operating Knowledge :

- Proficient in operating high-speed packaging lines, including ACG machines.
- Skilled in monitoring and controlling various packaging processes, such as unloading, scanning, and carton matching.
- Capable of identifying and resolving issues related to machine malfunctions, material shortages, and quality deviations.
- Knowledge of quality control checks and troubleshooting techniques.

Safety Compliance :

- Consistently followed Standard Operating Procedures (SOPs) for all tasks, including ACG, unloading, scanning, and carton matching, to ensure product quality and safety.
- Consistently followed Standard Operating Procedures (SOPs) for all tasks, including ACG, unloading, scanning, and carton matching, to ensure product quality and safety.
- Participated in the validation and calibration of equipment to ensure accuracy and reliability.

Documentation and Reporting :

- Documented routine maintenance and troubleshooting activities on the ACG machine.
- Maintained accurate records of product quality checks and any deviations observed. Generate comprehensive reports detailing equipment
- Maintained accurate records of inventory levels and usage.

Responsibilities::

- Operated ACG machine for efficient and accurate packaging of pharmaceutical products.
- Unloaded finished goods from the machine, ensuring product integrity.
- Scanned products and matched cartons to maintain inventory accuracy.
- Adhered to strict quality control standards and GMP regulations.

Team Collaboration:

- Clearly communicated with team members and supervisors to ensure smooth production flow and address any issues promptly.
- Worked closely with quality control, maintenance, and warehouse teams to maintain efficient operations.
- Collaborated with team members to identify and resolve production bottlenecks and quality issues.

Training and Development:

- Completed comprehensive training on the operation, maintenance, and troubleshooting of ACG packaging machines.
- Attended training sessions on Good Manufacturing Practices (GMP) and quality control procedures to ensure product compliance and safety.
- Participated in regular safety training programs, including hazard identification, accident prevention, and emergency response procedures.

- Knowledgeable in preventive and breakdown maintenance.
- Click emergency baton immediately when there is any problem or accident
- 4 pellets of the cartoon machine should not interfere.

Maintenance and Machining :

- When solving the problem of ACG machine not printing barcode correctly.
- Setup all machines during batch change in own line.
- ACG ribbon troubleshooting Properly setup the carton machine for each batch
- Self troubleshooting of machine sensors and all issues
- Solving the Lear problem of Unloading Machine manually

quality control and assurance :

- Adherence to strict quality control standards and GMP regulations in the pharmaceutical industry.
- Experience in conducting quality checks on packaging materials and finished products to ensure compliance with specifications.
- Ability to identify and resolve quality issues promptly to maintain product integrity.

Basic Hydraulics and Pneumatics :

- Understanding of the principles of hydraulic and pneumatic systems, including fluid power and pressure.
- Familiarity with basic components such as pumps, valves, cylinders, and actuators.
- Ability to identify and troubleshoot common hydraulic and pneumatic system issues.
